Classic base

A timeless design in classic wood with unique stability. Available in sizes S, M and L.

PIONEER LEATHER Full-bodied leather with good tear resistance and a delicate aniline pull-up finishing. The natural quality of this leather gives it medium-low resistance for color fastness to light and rubbing, and a natural appeal that becomes more beautiful with age. Marks, scars and insect bites are part of Pioneer's look.

Signature base with BalanceAdapt™

An elegant combination of wood and aluminum that offers a soft and comfortable rocking motion. Available in sizes S, M and L.

NOBLESSE LEATHER Our most exclusive leather is a full-grain semi-aniline, dyed using a light surface treatment. With the natural softness and characteristic glow of a first-class leather, Noblesse keeps its original grain, meaning minor color variations, marks and scars may be visible.

Star base with BalanceAdapt™

A stylish metal base with a soft and comfortable rocking motion. Available on a limited number of chair designs. Available in size M.

PALOMA LEATHER Slightly corrected, a combination of dyes and pigments smooth down some of this leather's pattern, although some minor grain and color nuances may vary.

Classic Power™ base

The elegant footrest is hidden beneath the seat. Available in sizes M and L.

BATICK LEATHER A corrected leather with a uniform pattern and many of its natural marks removed. Batick is resistant to fading, but changes will occur over time due to use and light exposure. The price and durability makes it a good choice for most homes.

Cross base with BalanceAdapt™

An elegant combination of wood and aluminum that offers a soft and comfortable rocking motion. Available in sizes S, M and L.
